YACHT MANAGEMENT

**PRESS RELEASE**

**ANDREW WEIR SHIPPING – YACHT MANAGEMENT  
TO EXHIBIT AT DUBAI INTERNATIONAL BOAT SHOW 2010**

Stand A2-1, 9-13 March

Dubai International Marine Club – Mina Seyahi

Andrew Weir Shipping (AWS) – Yacht Management is pleased to announce it will be exhibiting at the Dubai International Boat Show 2010, the Middle East’s largest gathering of boats, marine equipment and services.

With the development of the Large Yacht Code, AWS has utilised its vessel management expertise and formed AWS-Yacht Management to offer a total management service for Owners and Captains of large yachts.

AWS is a family owned company based in London with extensive experience in the management of many types of vessels including yachts and boutique cruise ships. This knowledge and experience is available to the large yacht market - regardless of size, type and worldwide location of the vessel.

AWS offers a full management service including the provision of ISM and ISPS systems tailored to fit owner’s specific requirements so that yachts can be enjoyed, safe in the knowledge that they are being operated to the highest standards. AWS can also source highly skilled, professional crew to ensure that yachts operates at peak performance.

AWS Managing Director, Steve Corkhill commented “AWS are pleased to be able to showcase our yacht management services at the Dubai International Boat Show 2010. We feel that our experience with the management of superyachts and exclusive cruise vessels makes us a natural choice for owners and operators in the yachting market.”

To find out more about the AWS – Yacht Management service please visit us on stand number A2-1 at the Dubai International Marine Club – Mina Seyahi or contact us direct.
